

HEC-C Renewal
Experience Tracking Form Path 3
Expiration Date: December 31, 2025

Use this form to document 200 hours of demonstrated healthcare ethics experience completed within the designated certification period (January 1, 2021 - November 14, 2025).

Name:

Credentials:

Renewal candidates choosing path 1 must have at least 200 hours of demonstrated healthcare ethics experience related to the major domain areas of the HEC-C program content outline within the designated certification period.

Although all healthcare professionals engage in ethical decision making, healthcare ethics consultation is a distinct role. For purposes of HEC-C certification, *healthcare ethics experience* is defined as healthcare ethics consultation work, the majority of which is performed in the role of a designated healthcare ethics consultant, which is related to the major domain areas of the HEC-C examination content outline.

Please select the HEC-C content outline domain(s) and task(s) that best describe the healthcare ethics work you have performed during your current certification period.

Note: Candidates do not need to demonstrate experience in all domains and tasks to be eligible. Please indicate all that apply across each healthcare ethics position listed in the Professional Position(s) section:

Domain 1: Assessment

- ☐ Gather and discern factual information relevant to the case (e.g., clinical, psychosocial, spiritual, institutional, legal)
- ☐ Assess the interpersonal dynamics of those involved in the consultation (e.g., power relations, racial, ethnic, cultural)
- ☐ Identify the ethical concern(s) and the central ethical question(s)
- ☐ Elicit the views of those involved in the consultation

Domain 2: Analysis

- ☐ Clarify relevant ethical issues (e.g., confidentiality, privacy, informed consent, best interest, professional duties)
- ☐ Identify a range of ethically acceptable options

Domain 3: Process

- ☐ Prepare for effective ethics consultation
- ☐ Facilitate effective and inclusive communication, ethical deliberation, and problem-solving among all parties
- ☐ Formalize ethics recommendations
- ☐ Complete the ethics consultation

Domain 4: Evaluation and Quality Improvement

- ☐ Assess one's own performance and effectiveness in ethics consultation at regular intervals
- ☐ Ensure systematic and comprehensive recording of ethics consultation data

- ☐ Monitor for and address relevant trends in ethics consultation within the organization (e.g., frequently repeated consultations about the same issue or from the same unit or department)
- ☐ Recommend policy and practice changes within the organization as needed.
