## HEALTHCARE ETHICS EXPERIENCE

Candidates must have at least 400 hours of demonstrated healthcare ethics experience related to the major domain areas of the HEC-C examination content outline within the previous 4 years. Visit <https://hec certification.org/preparation/content-outline> for information on the development of the content outline and examples of the types of activities that can be counted toward the 400 hours of healthcare ethics experience.

Although all healthcare professionals engage in ethical decision making, healthcare ethics consultation is a distinct role. For purposes of HEC-C certification, *healthcare ethics experience* is defined as healthcare ethics consultation work, the majority of which is performed in the role of a designated healthcare ethics consultant, which is related to the major domain areas of the HEC-C examination content outline.

Please select the HEC-C content outline domain(s) and task(s) that best describe the healthcare ethics work you have performed during the previous 4 years.

Note: Candidates do not need to demonstrate experience in all domains and tasks to be eligible. Please indicate all that apply across each healthcare ethics position listed in the Professional Position(s) section:
